### **Career Objective:**

To secure a challenging and professional position where I can utilize my skills and dedication to make a significant contribution to the organization.

#### **Education:**

United School of Business Management - Bhubaneswar, Odisha

Master of Computer Application (Computer Science)

CGPA: 8.74 (Sep 2023 - June 2025)

B.B Autonomous Mahavidyalaya - Chandikhole, Jajpur

Bachelor of Science in Mathematics CGPA: 8.19 (Aug 2020 – Jul 2023)

### Internship:

1. **JSpiders** – JAVA FullStack Developer Intern

**Duration:** (Jan 2025 – Aug 2025)

2. SkillCraft Technoology – Web Development Intern (Vertual)

**Duration:** Feb 2025 – Mar 2025

3. IBM CSRBOX SkillsBuild – Front-end Web Development Intern (Vertual)

**Duration:** Jun 2024 – Aug 2024

## **Projects:**

### Foodify – Full-Stack Food Delivery App

Developed a food delivery platform using the MERN stack, allowing users to browse menus, add items to their cart, and place orders. Implemented secure login and signup with JWT authentication. Created a user-friendly and responsive interface using React.js and managed data efficiently with Redux. Built a RESTful API to handle orders, menus, and user data while optimizing performance. Used MongoDB Atlas as the cloud database to store and manage data securely. Integrated Stripe for secure online payments, ensuring a smooth checkout experience.

### **Employee Management System**

Developed a dynamic web-based Employee Management System using Java, JDBC, Hibernate, Servlet, and JSP. The application follows the MVC architecture and provides complete CRUD operations for managing employee data. Integrated MySQL for database management and deployed the application on Apache Tomcat Server. Ensured a smooth user experience through proper validation, exception handling, and a clean JSP-based user interface. The system allows admin users to efficiently manage employee records through a structured and responsive web interface.

### **Technical Skills:**

- Programming Languages: Java (Core and Advanced), JavaScript
- Frontend Technologies: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, React.js
- Backend Technologies: Currently learning Spring Framework and Spring Boot. Hands-on with JDBC, Hibernate, Servlet, and JSP.
- Databases: SQL, MySQL, Firebase
- Version Control: Git, GitHub
- Other Tools: Eclipse EE, VS Code, Postman, Netlify, Maven, and Chrome DevTools.
